Customers Feedback:

“The various options given and the flexibility to manipulate variables allow users to modify and custom contents to their respective need.”

“Trainer is very knowledgeable.”

“...to me it's a very good software; easy to learn; very powerful; interactive and suitable with eLearning concept.”

“Trainer teach very well; very easy to understand the logic behind all functions and triggers... give examples on when or which function will be preferred...”

“I can focus on areas that I do not know how to do and I find learning faster that way.”

“I have a better knowledge and understand of what articulate can do as before when I heard about articulate; I could not visualise the purpose of using articulate.”
