Online Course: Mastering Articulate 360 (2 Different Sessions - 2 Hours Per Session)

Online Course: Mastering Articulate 360

Each session is conducted every week. You will be given materials to follow through the training before each session is proceeded. Plus, you may have some practices or exercises to perform after each session ends. There will be a post-training support for one month after the eight sessions.

How will this course benefit you?

- Able to create a simple eLearning course, but yet interactive
- Transform your instructional design ideas into a working prototype
- Participate in our discussion to prompt ideas and/or thoughts
- Learn the tips and tricks in using Articulate 360

Who should attend?

Training managers, trainers, instructional designers, product managers, marketing and communication professionals, lecturers / tutors and professionals who wish to deepen their learning design skills to produce more effective learning experiences

Customers Feedback:

"The various options given and the flexibility to manipulate variables allow users to modify and custom contents to their respective need."

"...to me it's a very good software; easy to learn; very powerful; interactive and suitable with eLearning concept."

"Trainer teach very well; very easy to understand the logic behind all functions and triggers... give examples on when or which function will be preferred..."

"I can focus on areas that I do not know how to do and I find learning faster that way."
